Subject: Start the new season off on the right foot.

Gentlemen and Jim thank-you for your prompt replies to our previous emails.

We are not sure when you will start producing new shows for 2008 , but may we suggest you start your next season off on the right foot and consider the most important hot topic that is on every new Canadian buyer's mind these days.

Fair Pricing for the Canadian Automobile Consumer.

You might want to start off in a few different ways:

- 1) Jim can open the show retracting his "BUY IN Canada" remarks, or you can let him provide more specific details to support his position that we all buy our cars in Canada. (these details should be substantiated and well understood by the average hard working Canadian)
- 2) Or You can open up the show to a healthy debate. What really are the pros and cons of purchasing a Car in the U.S. or why are prices so much higher than in Canada.

Gentlemen, Please take a look at our WEB site www.carswithoutborders.com you will see a variety of comments posted against the March 15th entry titled "Motoring TV tells Canadians to shop in Canada!!" We opened up the discussion on Jim's recent reply to my e-mail last Saturday and we were flooded with feedback.

We would be happy to summarize them all up and forward you a copy. Just ask.

We support any initiative that gets the truth out to the average hard working Canadian, that is now being gouged by the Car manufacturers, with the help of Transport Canada.

Note: to Jim, the warranty on my Canadian built, YS purchased Honda Civic exl is covered and the CAA folks guarantee they will tow me to my US dealer if and when I have any trouble.
